## PL4042, Plasma/LCD Stand

## Model PL4042 Plasma Display Stand

In keeping with the latest trends in display technology, VFI has developed a mobile plasma display cart that allows you to easily move your plasma display and other electronic equipment for room to room. For video-conference applications, PM-S/D/XL supporting holes are pre-drilled, so adding the optional mounts is quick and easy. Inside you will find a 16ru rack mount on the left and 3 large shelves on the right side. PL4042 was designed to house a VSX subwoofer, Codec or other speaker behind the center grille. The angled design was chosen for improved visibility, ventilation and output panels at the rear.

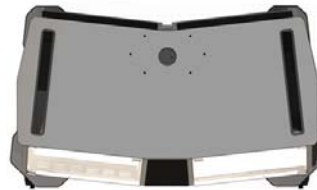

### Standard Features Include:

- "Fortress" scratch resistant paint.
- 16ru on left side and 3 shelves on right
- Angled face for visibility and access.
- 5 Premium casters for easy maneuvering.
- Tinted Plexi doors and solid locking rear doors.
- Center vented space for Codec, VSX or other speaker.
- Well ventilated, Top vents also act as handles.
- Dual 2ru vented panels at rear.
- Permanent construction ships fully assembled.

### Options

- PM-S/D/XL Plasma/LCD mounts.
- 16 space rack rail kits for other side.
- 3 shelves for other side.
- CAM Camera mount for set top video-conferencing codec or camera.
- Six outlet power bar with 10ft cord.
