U BOARD

Bluetooth

Checklists for Interactive Whiteboard.

☑ **User Convenience**
☑ **Performance**
☑ **Quality**
☑ **Investment protection**
☑ **Cost-effectiveness**

Want to sacrifice nothing ?
uBoard is a unique answer.

U·BOARD bluetooth | USB wired

PNF

KEY BENEFITS

Investment Protection :
Full compatibility with existing computer and any beam projector makes you completely protected by the existing investment.

Much practical system :
uBoard practically supports up to 120" working screen on any surface with same cost.
Comparing with other board built - in interactive whiteboard systems supporting this screen size, you can realize the uBoard is very cost effective solution. Moreover, using sticky non-glare hard coated film on existing chalkboard can save cost and increase convenience dramatically by taking full advantages of using both digital pen and dry wipe pen.

No need to learn:
uBoard is very easy and intuitive device which not requires additional time to learn Interactive Whiteboard functions

Rich convenient features :
The uBoard is designed to provide uncomparable user convenient features such as auto recognition of input field, MS ink support, hot functions keys on the station and many others.

Constant Learning :
The uBoard's simple and robust architecture rem - oves downtime and makes it simple & easy maint- enance.

Inspire Lecture and/or Presentation :
Its Interactive enabling features on any flat surface let you produce teaching materials quickly & saved on the computer or have differentiated and valuable presentation.

FEATURES
