

Designed exclusively for professional photographers who work under extreme conditions and can't afford to miss the right shot.

Now SanDisk—the world's leading supplier of flash data storage—gives professional photographers a choice of fast, durable and extremely reliable memory cards. Only SanDisk Extreme™ memory cards are designed, built and tested to withstand the rigors of taking and storing pictures under the most severe weather conditions. Everything from oppressive heat to frigid cold to hurricane-like winds. We know that working under harsh conditions requires a memory card that can take a lot of abuse. With SanDisk Extreme, your photos will be there—everytime!

Extreme conditions call for Extreme products.

This is the rugged and reliable SanDisk Extreme memory card for your most demanding professional photography needs. Simply choose the format with the capacity that best meets your specific requirements. And with even higher capacities coming in the future, you'll never be disappointed!

SanDisk Extreme CompactFlash® Cards

Available in 256MB, 512MB, 1.0GB and 2.0GB

SanDisk Extreme SD™ Cards
