## Compact, Easy-To-Use And Fun. With Stunning Results.

# **Powerful Imaging** For Whatever You Love

With the CAMEDIA C-350ZOOM, taking beautiful pictures has never been easier. Full automatic shooting, plus multiple preset modes such as Scene Programmes or white balance settings, make it easy to take beautiful photos in any situation. Shooting simplicity is also supported by the CAMEDIA C-350ZOOM's powerful 3.2 million pixels,

sharp 3X optical zoom lens, and high-quality image processing technology, so your pictures come out crisp and clear. In addition, TV and PC connections give you more ways to have fun with images than ever. So whatever you love, cherish it with the CAMEDIA C-350ZOOM.

#### 3.2 Million Pixels & High-Quality Image Processing Technology

The pure strength of 3.2 effective million pixels lets you photograph pristine pictures with incredible sharpness. Image size can be selected from 2048x1536 pixels to 640x480 pixels. Thanks to the Olympus TruePic technology, even more beautiful images are produced standing out with amazing sharpness and contrast as well as true colour and gradation.

#### 3X Optical Zoom, 10X With Digital Zoom

A sharp 5.8-17.4mm\* 3X optical zoom lens with accurate focusing ensures that you capture crisp detail. With 3.3X Digital Zoom, up to approx. 10X telephoto shooting\*\* is possible.

\* Equivalent to 35-105mm on a 35mm camera. \*\* Equivalent to approx. 350mm on a 35mm camera Images may be grainy in Digital Zoom.

### **Auto & Scene Programme Shooting**

CAMEDIA C-350 ZOOM

Programme auto exposure and versatile Scene Programme modes are all available. The Scene Programme modes (listed below) let you shoot superb pictures customised for the situation.

Portrait: Portrait-style images of people against a blurred background. Skin tones are reproduced clearly and naturally.

Self Portrait: Quality photos of yourself while holding the camera. Focus locks on you and complexions appear realistic.

Landscape: Sharp pictures of sweeping landscapes. Especially vivid blues and greens let the beauty of nature stand out even more. Night Scene: A slower shutter speed than normal captures the scattered lights of night scenes distinctly. (A tripod is recommended.)

#### **Exposure Compensation**

±2EV exposure compensation in 1/2 stops is possible, letting you express the brightness and colour of subjects as you desire.

**Auto & Preset White Balance** 

In addition to the auto setting, white balance can be preset for daylight, overcast, tungsten, and fluorescent light

#### 2-In-1 Images

You can combine a shot with the one taken right after for interesting and useful composite photos.

**Large LCD Monitor** 

The big 4.5cm LCD monitor is easy to see and its 100% field-of-view allows precise framing.

Double-clicking the monitor button lets you check images immediately without having to change to playback mode.

#### **xD-Picture Card Compatible**

Images can be saved to an incredibly small xD-Picture Card up to 256MB. In the near future, the xD-Picture Card will have an enormous memory capacity. A 16MB xD-Picture Card is included.

#### Video Out

Images can be displayed on a TV monitor using the included video cable.

#### **USB AutoConnect**

Simply connect the included USB cable from the camera to your PC, then download your images. You can also transfer images using the optional USB Reader/Writer, PC card adaptor, or CompactFlash card adaptor.

#### And More ...

- Digital ESP (Electro-Selective Pattern) & Spot Light Metering
- Sequence Shooting
- Macro Mode For Shooting Nearby Objects
- Several Flash Modes
- Motion JPEG Image Recording
