What is SanDisk Ultra?

SanDisk Ultra is a new line of high-speed flash memory cards.

- Specially designed for use in high-performance digital cameras.
- An excellent choice for anyone who plans to upgrade to a faster, higher resolution camera in the future.
- Fully compatible with all CompactFlash digital cameras that are CFA-compliant.
- Works with all SanDisk ImageMate™ readers and PC Card Adapters.

Who should buy SanDisk Ultra?

SanDisk Ultra is *perfect* for advanced digital photographers who require high-performance cards to quickly shoot many high-resolution images, making it ideal for:

- Photos of moving cars or trains
- Sporting events
- Sprinting animals
- Any event that requires fast snapshot and recovery time

In high-megapixel digital cameras, SanDisk Ultra saves large image files to the card as quickly as possible so the camera will be ready to capture the next picture.
