

# USB COLLABORATION SOLUTIONS

---

Vaddio's line of USB products lets you transform your personal computer into an effective and affordable enterprise-class room system. Whether it's a small videoconferencing system or distance learning, Vaddio gives you the tools you need to make your software applications work in a real world AV environment.

Vaddio's Unified Communication and Collaboration tools include HD-USB cameras, a full suite of USB audio components and USB systems for plug-and-play simplicity. All of Vaddio's Unified Communication and Collaboration tools are based on Universal Video and Audio Class (UVC/UAC) standards, eliminating the need for custom software drivers or a particular OS to be installed on the PC, allowing them to work seamlessly with any soft client conferencing system including Skype for Business, Google+, Cisco Jabber and any lecture capture software such as Tegrity and Panopto.

Vaddio's Unified Communication and Collaboration tools truly bridge the gap from PC applications to professional AV solutions that allow users the opportunity to engage in any type of collaboration and conference activity across the enterprise.

## Elevate the Huddle Room Experience

### ConferenceSHOT™ AV Enterprise-Class Conferencing System

Optimized video and audio performance for huddle rooms and small to medium meeting spaces

With sharp video and powerful sound, the ConferenceSHOT AV brings conferencing to a new level. ConferenceSHOT AV is a PTZ 10X zoom camera with audio inputs and outputs that let you connect a speaker and two Vaddio microphones.

ConferenceSHOT AV turns your BYOD device into a small space UC system with professional PTZ camera quality and full room audio performance. It's a significant step up in performance from the current webcam-based technology offerings. This USB-based solution makes it easy to collaborate using Skype for Business, Webex, Zoom, BlueJeans, Google Hangouts, Vidyo and other leading UC services.

## ConferenceSHOT AV – Bundles

Vaddio offers a variety of ConferenceSHOT AV bundles for huddle rooms, small and medium conference rooms.

All bundles provide:

- USB 3.0 connection to access leading web services including Skype For Business, Zoom, Webex, Google Hangouts, BlueJeans and others
- USB 3.0 connection delivers uncompressed video from leading UC Solutions, for the most natural, high quality experience.

## ConferenceSHOT AV Bundle – Group

### Ideal for Medium Conference Spaces

- Includes ConferenceSHOT AV, ConferenceSHOT Speaker and Two EasyMIC Table MicPODs
- HD PTZ Camera with 10X zoom, 74° Wide Horizontal Field of View supporting up to 1080p/60 resolution
- Two (2) Table MicPODs with 360° coverage and independent echo cancellation and equalization
- Powered speaker (20W) with integrated performance and installation with ConferenceSHOT AV
- All necessary cables for UCC connectivity, see Vaddio catalog if longer cable solutions are necessary

# USB Audio Solutions

Audio solutions that connect to your PC, allowing users to engage in any type of collaboration and conference activity.

---

## EasyMic Ceiling MicPOD

- Ceiling microphone providing 360° coverage through three mic elements with independent acoustic echo cancellation, equalization and noise reduction
- White 2.5" spherical design with 36" adjustable cable; mounted from hidden plenum-rated ceiling interface enclosure
- Simple integration using Cat5/6 cables to EasyMIC supported equipment

WORLDWIDE WHITE 999-8510-000 | Black 999-8515-000

## EasyMic Table MicPOD (with keypad)

- Table microphone providing 360° coverage through three mic elements with independent acoustic echo cancellation, equalization and noise reduction
- Keypad for audio controls providing access to room or USB control interfaces
- Simple integration using Cat5/6 cables to EasyMIC supported equipment

WORLDWIDE 999-8500-000

## EasyMic Table MicPOD (without keypad)

- Table microphone providing 360° coverage through three mic elements with independent acoustic echo cancellation, equalization and noise reduction
- Simple integration using Cat5/6 cables to EasyMIC supported equipment

WORLDWIDE 999-8550-000

## EasyUSB Mixer/Amp

- Ideal for interfacing EasyMic MicPODs and speaker outputs to USB connected devices
- Audio input mixer supports up to two EasyMIC MicPODS and one line input for audio access over USB 2.0
- Audio outputs include amplified speaker output supporting 2x20W and one line output

NORTH AMERICA 999-8530-000 | INTERNATIONAL 999-8530-001

## EasyUSB PRO MIC I/O

- Interface for third party microphones to interface into EasyMIC port supported products - ConferenceSHOT AV, EasyUSB Mixer/Amp
- Supports up to four microphones per EasyMIC port output
- Each input mic port supports wideband echo cancellation, XLR mic level inputs with assignable phantom power, high and low cut filters, GPIO and front panel lockout
- Output plugs into one EasyMic Port to inject microphone audio into USB connected devices

WORLDWIDE 999-8520-000

## EasyUSB MicPOD I/O

- Interface for EasyUSB MicPODs to connect to a 3rd-party audio conferencing mixer
- Up to four (4) EasyUSB MicPOD inputs converted to four balanced line outputs with echo cancellation reference

NORTH AMERICA 999-8535-000 | INTERNATIONAL 999-8535-001

## EasyUSB Sound Bar

- Sound bar speaker (non-powered) for use with EasyUSB Mixer/Amp

WORLDWIDE 999-8565-000

## EasyTalk USB Audio Bundles - System A

- Single table microphone audio conference bundle
- EasyUSB Mixer/Amp
- EasyMic Table MicPOD with integrated Echo Canceling
- EasyUSB Sound Bar Speaker
